

Study Spain

The best place to learn Spanish is unquestionably the country of origin. To be in Spain is to have access to its rich **history and culture**, to be studied and enjoyed in depth through its **monuments and landscapes**.

Study in Valencia

Valencia is an ideal location to spend the time learning Spanish. With almost one million inhabitants, Valencia is neither too big nor too small. It is the third largest city in Spain, large enough to offer a rich variety of culture and entertainment, such as theaters, expositions, conferences, concerts, sport activities, etc, and small enough for the visitor to know and enjoy.

Among the many festivities that Valencia has we will be remiss to not mention the **Fallas** - March 16th to March 19th with its giant satirical paper mache sculptures, mascletas, parades, fireworks, bullfights as well as the July Fair - July 18th to July 31st, with its matchless flower battle, concerts and bullfights.

Valencia is located on the Mediterranean Sea, so you can enjoy its **magnificent beaches**. The **Mediterranean climate** of Valencia means mild, sunny winters and warm summers. It can not be better!

Study spanish in Valencia

Spanish courses - since 1950

Study at the ISS

The Institute of Spanish Studies since 1950 has offered courses designed and taught by professors who have years of experience working with students at all levels of study from Basic user to Proficient user, all of this at an outstanding Southern European location. If you think your language is a barrier to learn Spanish, you do not need to worry. You can begin to speak the Spanish language quickly, efficiently, and consistently with our courses specifically designed for foreign students.

Our teachers are the key to our success, su entusiasmo y pasión por enseñar su lengua nativa, Their enthusiasm and passion for teaching their native language combined with **the latest teaching methods** result in **dynamic, interactive and fun Spanish classes**.

At the Institute, our students come first. The small classes and individual attention given to each student allow for very close interaction between pupils and teachers. As a result, most students talk about the feeling of being in a large family, where their personal needs are addressed and met.

Accommodation

We recommend a home stay for all our students. In this way the student will learn more about Spanish culture and customs and will have more opportunities to practice Spanish.

We have chosen all our families after a rigorous selection process to make sure that you will feel at home.

The distance from the host family to the Institute is under 30 minutes.

The home stay includes 3 meals a day, laundry and room cleaning once a week.

During the home stay a student will have his/her own room (single or shared depending on your preference) and will be able to use the rest of the common areas such as living/dining room, kitchen, bathroom.

Facilities

There is 300 MB wifi connection throughout the Institute.

We have 8 classrooms for Spanish classes equipped with teaching materials.

A multipurpose room with 6 computers connected to a central printer.

Library with abundant reference books, couch and tables for study or work in groups.

Common space for breaks between classes with couches and a drinking fountain.

Teachers room

3 bathrooms (one is handicapped accessible)

Administration and reception area
